NOTE: Be sure to outline your proposed programs when applying for a chapter charter. Plan programs to fit your conservation needs, then build your Izaak Walton League Chapter and your membership to accomplish these goals.

Working chapters are always growing, thriving organizations. No chapter can survive without one or more definite conservation programs.

You may submit on separate sheet (or attach maps, photos or sketches) such additional information as may be necessary to give the National Office a proper understanding of your local conditions and how you propose to correct them.
